

# Disclaimer

**Effective Date:** 01/04/2026

**Last Updated:** 01/04/2026

The information contained on this website is provided by **JRST TECHNOLOGY** for general informational and business communication purposes only. While we make reasonable efforts to keep the information accurate, updated, and relevant, we make no representations or warranties of any kind, express or implied, regarding the completeness, accuracy, reliability, suitability, availability, or timeliness of any content, information, products, services, graphics, technical references, industry information, or materials contained on this website. General no-warranty and no-responsibility language is a common and recommended part of website disclaimers.

Any reliance you place on the information available on this website is strictly at your own risk. Website disclaimers commonly state that users must independently evaluate the information before acting on it.

## 1. General Information Only

The content on this website is intended only to provide general information about JRST TECHNOLOGY, its business activities, services, products, project capabilities, and industry focus areas. It is not intended to constitute legal advice, engineering advice, financial advice, investment advice, procurement advice, regulatory advice, or any other form of professional advice. Informational-content disclaimers are standard where website content could otherwise be misunderstood as advice or assurance.

Users should obtain independent professional, legal, technical, financial, or commercial advice before making any business, project, investment, procurement, or operational decision based on the content of this website.

## 2. No Offer or Binding Commitment

Nothing contained on this website shall be construed as a binding offer, proposal, guarantee, warranty, representation, or commitment by JRST TECHNOLOGY to supply any product, service, machine, project, or consulting support unless expressly agreed in writing. Disclaimer guidance often recommends clarifying that website content alone does not form the basis of a binding agreement.

Any inquiry submitted through the website, or any response provided by JRST, does not by itself create a contractual relationship, partnership, joint venture, agency, or any legally enforceable obligation unless separately documented in writing.

### **3. Technical, Commercial, and Market Information**

Any references on this website to machinery, equipment, semiconductor manufacturing, silicon ingot production, solar wafer manufacturing, process support materials, project capability, market size, market forecasts, industry growth, or 2030 opportunity are for general informational and illustrative purposes only. Content-risk disclaimers are useful where business users may rely on technical or commercial information without independent verification.

Such information may be based on publicly available sources, industry publications, internal understanding, third-party inputs, or indicative market commentary, and may change without notice. JRST does not guarantee that such information is current, complete, error-free, or suitable for any specific commercial, investment, or technical decision.

### **4. No Warranty**

This website and all content made available through it are provided on an “as is” and “as available” basis, without warranties of any kind, whether express or implied, to the fullest extent permitted by applicable law. Warranty disclaimers are a common protective element of website disclaimer pages.

JRST TECHNOLOGY expressly disclaims all warranties, including but not limited to implied warranties of merchantability, fitness for a particular purpose, non-infringement, accuracy, availability, and suitability of information for any business use.

### **5. Limitation of Liability**

To the fullest extent permitted by law, JRST TECHNOLOGY shall not be liable for any direct, indirect, incidental, consequential, special, exemplary, punitive, or business-related losses or damages arising from or connected with:

- Use of, or inability to use, this website.
- Reliance on information, content, materials, or statements published on this website.
- Errors, omissions, inaccuracies, or outdated content.

- Technical failures, interruptions, delays, malware, viruses, system outages, or website unavailability.
- Actions taken by users based on website content, inquiries, or third-party links.

This includes, without limitation, any loss of profits, business opportunity, goodwill, revenue, data, contracts, operational continuity, or commercial advantage.

## **6. External Links Disclaimer**

This website may contain links to third-party websites, external platforms, or external resources for convenience or reference. JRST TECHNOLOGY does not control and is not responsible for the availability, content, accuracy, privacy practices, security, policies, or reliability of any third-party website. Third-party link disclaimers are standard and help make clear that inclusion of a link does not equal endorsement.

The inclusion of any external link does not imply endorsement, recommendation, approval, or association by JRST unless expressly stated otherwise.

## **7. Website Availability and Security**

JRST TECHNOLOGY does not guarantee that the website will be continuously available, uninterrupted, secure, error-free, or free from viruses or harmful components. Website disclaimer guidance commonly includes statements about availability, cyber risks, and technical interruptions.

Although reasonable care may be taken to maintain the website, JRST shall not be responsible for temporary unavailability, technical disruptions, or data transmission issues arising from factors beyond its control.

## **8. Forward-Looking and Business Statements**

Any statements on the website regarding growth potential, market opportunity, business capability, future availability, planned expansion, project potential, or expected outcomes are forward-looking in nature and are subject to uncertainties, risks, assumptions, and external market conditions. Disclaimer policies often help limit liability where future-oriented statements could otherwise be interpreted as promises or guarantees.

Actual outcomes, execution capability, timelines, pricing, supply, product suitability, and project results may differ materially depending on technical, commercial, regulatory, logistical, and market factors.

## **9. Intellectual Property Notice**

All website content, including text, design, graphics, logos, brand assets, images, and materials, is owned by or licensed to JRST TECHNOLOGY unless otherwise stated. Users may not copy, reproduce, republish, distribute, modify, or commercially exploit any website content without prior written permission. Intellectual-property notices are frequently included in disclaimer or legal pages to protect website content.

## **10. Jurisdiction**

This Disclaimer shall be governed by and interpreted in accordance with the laws of India. Any disputes relating to the use of this website or this Disclaimer shall be subject to the jurisdiction of the courts at Nagpur, Maharashtra. Jurisdiction language is commonly added to website legal pages to define the forum for disputes.

## **11. Contact Us**
